

The warm heart of your home..

Horse Flame® – efficient, cleaner burning and affordable too.

EVERY HORSE FLAME® stove offers you outstanding quality, supreme reliability and all round value for money – no wonder it's one of Ireland's best-selling stove brands.

Each Horse Flame stove has been produced with clean burning in mind. For example, all of the stoves benefit from a large airwashed glass, with window sizes generally much greater than rival stoves to ensure that you always get a great view of the fire and the wonderful flame patterns they create.

The 5kW *Artemis* is our most popular stove and has been designed to heat a typical living space efficiently as well as be very easy to use – there's even a small boiler version which can heat up to two radiators or provide domestic hot water, making it the ideal choice for a holiday cottage or workshop.

This is just one of the impressive choice of boiler options. At the other end of the scale there's our big 26kW *Firepower* boiler stove which is capable of heating up to 16 radiators – making it one of the largest output multi fuel boilers on the market. Like the *Firepower* all of our boilers are guaranteed for 5 years (along with the bodywork) to provide you with real peace of mind.

So whichever one you choose, you can be sure that your new Horse Flame stove will quickly become the warm heart of your home...

CE Tested & Approved in Europe
EN13240 Standard
ISO 9001:2000

With the Horse Flame range there's a stove for every situation – the superb wood burning Pony (top), the black enamel Regis (middle) and the big Yarrman 18kW boiler, all make a wonderful focal point for any living space.

The Firepower 3 HF577B

BOILER

UNTIL NOW there has been an extremely limited choice of high output wood and multi fuel boiler stoves capable of delivering the kind of heat that larger properties need. Try and find one that will also look equally good in a traditional or contemporary styled home.

Enter Horse Flame's new *Firepower 3* designed and built by the same people who make Ireland's biggest selling boiler stoves, so you can be sure that it will give you many years of trouble-free performance.

Firepower's solid cast iron construction, subtle detailing and supremely practical fire chamber along with easy-lock double doors simply put it in a class of its own. And then there's the competitive price...

Performance and Sizes

Nom output - room	10.0kW / 34,140BTU
Nom output - water	16.0kW / 54,620BTU
Minimum efficiency - wood	< 75.0%
Maximum CO emissions	0.3%
Top flue outlet only (mm)	6" / 150
Log length (mm)	18" / 450
Stove net weight (Kg)	232.0
Dimensions	H830 W800 D600
From centre of top flue to back (mm)	200
Clearance to combustible materials (mm):	
Top	800
Sides	700
Rear	500

The Artemis HF317

● Enamel Option

Performance and Sizes

Nominal output	5.0kW / 17,070BTU
Minimum efficiency - wood	< 71.0%
Maximum CO emissions	0.3%
Top or rear flue outlet (mm)	5" / 125
Log length (mm)	12" / 300
Stove net weight (Kg)	87.0
Dimensions	H670 W455 D420
